Nashik

SUMMARY

Software Developer with hands-on experience in building clean, responsive, and performance-focused web applications using HTML, CSS (SCSS), JavaScript, and React. I enjoy turning ideas and designs into real, user-friendly interfaces while keeping accessibility, SEO, and code quality in mind. Comfortable working with designers and backend developers in fast-paced environments, and always curious to learn better ways of building for the web.

WORK EXPERIENCE

SOFTWARE DEVELOPER , ARROWSOFT CONSULTANCY PRIVATE LIMITED	8-Months
<ul style="list-style-type: none">Designed and developed web and mobile application.Designed and developed reusable software components.
